RULES OF THE GAME

1. TEAMS = BOYS vs. GIRLS
2. MAIN OBJECTIVE: Be able to recognize each saint and give an important fact or story about them (*Note: Not all saints in this game are ones that we studied, but you still might be able to guess who they are!).
3. The first person to raise their hand after I click the slide will be called on. If the saint name given is correct, 1 point will be given to the team. If the saint name guessed is incorrect, 1 point will be taken away and the other team will be given the chance to steal the point.
4. If the person that makes the correct saint name guess is also able to give 1 important fact or story about the saint their team will be awarded another point. If a volunteer member from the other team can add 1 additional important fact or story about the saint their team will be awarded a point.

5. Once a student participates (guessing a saint name or sharing a saint fact/story) they may not participate again until everyone else on their team does so.

6. Any student caught telling or showing a teammate an answer will automatically lose a point for the team.
7. Students who are failing to pay attention, remain quiet during the game, or prematurely raise their hand (before I click for the next slide) may also forfeit a point for their team.

8. The team with the most points at the end of the game will win a fun-hearted "Boys/girls rule, boys/girls drool!" chant from the opposing team, followed by a 10-clapper Gator clap.
