

LeCrae (featuring Trip Lee) - Fall Back

INTRO

*I know you might a seen it on the TV
You hear it on the radio and CD (fall back)
But you can be deceived pretty easy
Believe me... you might wanna (fall back)*

VERSE 1

(LeCrae)
Lies in them songs lies on television
No telling what lies on the television
Learned sarcasm, sexism, racism
Learned to worship money cars
Learned to hate Christians
All the Christians in the movies so typical
Alcoholic, child molesting, hypocritical and mystical
They say since everyone is doing it it's normal
But Jesus says be transformed and don't let them conform you
You ain't thin enough you need diet
You need a psychic everybody does it you should try it
Spring break hit the beach what you s'posed to do?
Be careful what you let the media impose on you
You learned how to find peace from a TV show
You learned how to ride clean from them videos
In 30 seconds a commercial have you mixed up
Call now and we can have your whole life fixed up

CHORUS

*Fall back
I know you might a seen it on the TV
You hear it on the radio and CD (fall back)
But you can be deceived pretty easy
Believe me... you might wanna (fall back)*

*The enemy is crafty and misleading
That's why I use the word of God to lead me
And I ain't eating everything they feed me
Tryna deceive me...so I gotta fall back*

VERSE 2

(Trip Lee)

These days if you watch the box you should block your
Mind in these times and them lies that could lock you
They telling girls in our world to be hot stuff
And telling dudes link with crews on the block tough
Plus I'm feeling like they mock us
They think that God is old school like a box cut
But I'm sure that His flock's tough
And we can judge what is bug and live pleasing in His sight when the clock's up
I hope we gazing through His lens with eyes
So we can defend what it is when we get they lies
It's on that cash that they fix they mind
Man they always saying cheese like its picture time
Tell em cool it with the mind games
I'm chasing Christ, I'm renewed in my mind frame
And removed from them tired games
Then say my life it ain't mine man
We must remove the damaged parts like a tire change

CHORUS

VERSE 3

(LeCrae)

Be a rebel let the word of God lead you
Satan uses media to tempt you and deceive you
He will lead ya leach ya and leave ya
So be careful as you navigate through media
Take heed before gravity get the best of you
And you'll find the concrete bench pressin you
Use the word of God to help filter all that
Before you fall into the trap you better fall back

(Trip Lee)

You know what I call that? I call that maturity
Learning how to fall back so you can live in purity
Learning how to walk that and saying them you ain't luring me
The media is meeting us with lies but He's curing me
I know them guys trying to hype you
But cling to the Lord's Word, flee from them vipers
We spitting aiming at your heart like snipers
We'd like for you to desire God like Piper

CHORUS
