Good examples!
Merciful God, anoint me with your Holy Spirit.

And as I read your word, let me hear your voice speaking to me from within.

Give me wisdom to understand your message to me.

Let your word be the joy of my heart and the lamp to my feet.

Give me strength to build my life on your word.

Let it be done unto me according to your word.

May I rejoice in the blessedness of hearing your word and keeping it.

Speak Lord, your servant is listening...

Thank you Jesus... Praise you Lord

Bible usage can be HABIT FORMING! Regular reading can cause loss of anxiety and fear, decreased appetite for lying, cheating, stealing, hating, anger and envy. SYMPTOMS include:
Increased sensation of love, joy, peace, compassion and contentment.
If SYMPTOMS PERSIST, Just praise the Lord!

-Peter Kreeft

The Bible should come with a warning label.

The more you read the Bible, the more you will love the author.

1. Just read it
2. When God punches you
3. Use a bible you will actually read
4. Time travel. Imagine you are there
5. Start with the gospels and psalms
6. It wasn’t only written for priests and nuns, but for everyone
7. Read metaphorically when you should and literally when you should
8. Read slowly so that you can actually find the meaning for the verse
9. Focus on the big picture even though the small details are important
10. Don’t read alone. Remember that others have become saints by following the Bible.
**TIP #1:**

If you decide to make your bookmark on your laptop, I’d suggest creating 2 bookmark-shaped boxes of the exact same size in a Keynote first. Then, put all your tips, quotes, pictures, etc. within them. Finally, print, carefully cut, and put them back to back.
TIP #2:
You do not want a super thin (just 2 pieces of paper) bookmark because it will end up being really flimsy and won’t help you keep your spot in the Bible. Instead, you should create a thicker, sturdier bookmark. I would highly suggest using a piece of card stock (or thick construction paper) between the two sides of your bookmark.
TIP #3:
After cutting the card stock to the exact size needed, use a simple glue stick (NOT tape, which will look very unprofessional) to adhere everything together. Do NOT use too much glue. You do not want the glue to seep through your paper. Just use enough to stick the sheets together. When your bookmark goes through the laminator it will further “melt” your bookmark together.
TIP #4:
If you plan on tying a piece of yarn or string to the top of your bookmark just leave enough space for a small hole. After your bookmark has been laminated you can use a hole punch to make a hole in the lamination.
