

Name: Godric Gryffindor
Class: 7S **Date:** 11/11/17
Saint of the Day: St. Martin of Tours
(Pray for me!)

SEPTEMBER

Instructions: Find a Christian song that you really enjoy, search for the lyrics online, then analyze the lyrics and think about how you can apply the song to your life.

SONG INFO

Artist: Lecrae (ft. KB and Suzy Rock) **Song Name:** Fuego

Type of Music: Hip-Hop/Rap (e.g. Acoustic, pop, praise & worship, hip-hop/rap, rock, etc.)

How did you find this song? I was actually adding new music to my ipod and was going through my brother's songs to see if he had anything I wanted. I listened to a lot of music from his itunes and only added a few songs. This was one of them.

LYRICS THAT SPEAK TO YOU

Choose any 3 sets of lyrics from the song that speak to you or jump out at you the most (each set of lyrics can be as short as one line or as long as a few lines strung together).

1st set of lyrics

Passion's a fire bright and we'll be burning forever
Set the world on fire let's set the world on fire

2nd set of lyrics

Ya I pray but faith is dead if I don't get up and go work my legs
Torches high light the sky 116 no shame tonight
Ya they ain't ever seen a shine like this
Look up ain't ever see the sky like this
I'm on and this little light I got
Imma let it shine til the day I drop

3rd set of lyrics

Feed the hungry and touch the sick
We go'n help the homeless and love the kids
We go'n move to a place where it's hard to live
And folks die young and they learn to kill
Light the sky up change your bio
Live for something more than things you buy up
Serve and save learn and change
Trust in the king who can turn this thang

SONG ANALYSIS

What is this song all about? What kinds of things can it teach us?

The overall message is that we need to be loud and proud about our faith. If we hide our faith and act unchristianlike than we're forgetting what it means to be Catholic. Instead, we need to live like Christ and preach about him so that others can be touched as we are and experience happiness and eternal life. The song likens the Gospel to fire because it gives life and spreads fast so long as there is oxygen (other Christians) and fuel (people who are unsure about faith, but want to find an answer) to keep it going.

APPLICATION

How will you apply the main messages of this song to your own life?

I will apply this to my life by trying to give more credit to God. Right now if someone complimented me I might say something like "Yes, I am pretty good at that" or "Thank you for noticing my skill". Instead, I will try to use that as a chance to show them a taste of Christianity. I will say things like "God is great for giving me a talent" or "I couldn't do this without the help of God." Also, I will try to volunteer more and be ready to help those he need it. For example, I can try giving some of my own money or goods to charities or go beyond the required amount of service hours and do some extra volunteering.

LYRICS

Copy/paste the song lyrics below

I'm all in preach Jesus til I'm short winded
Come gossip pouring up living water and lyrics
This ain't rap this bartending
And I'm back in the back snap back to the back
With a pack full of cats that'll strap with the fact
Christ when he ask to revive in the tracks
Turn they're life into maps with the gospel we pack
Look I'm of one life but for Him I spend every cent though
I know this life it comes with pain
But it's through our pain we win though
Could be made like Him so treat these streets like flint bro
Cause our God can spark up the dark
In the hearts of the hardest departed let's go
Treat every night like it's the last night
Like it's the last time you get no other chances
Get your torches high let's set ablaze the sky
Passion's a fire bright and we'll be burning forever
Set the world on fire let's set the world on fire
Set the world on fire let's set the world on fire
Set the world on fire let's set the world on fire

Set the world on fire let's set the world on fire
Never been here before left foot tell the right foot to go
See the whole world coming through the door
Footloose don't nobody care no more
Come on go hard til the end don't quit it
Sky to close now go'n head get it
World's the same it's all a game
Look at a stranger go'n change a thang
Get up the sky go'n burn tonight
Ye know ya'll going to learn tonight
Feed the hungry and touch the sick
We go'n help the homeless and love the kids
We go'n move to a place where it's hard to live
And folks die young and they learn to kill
Light the sky up change your bio
Live for something more than things you buy up
Serve and save learn and change
Trust in the king who can turn this thang
Yeah they ain't every seen a shine like this
Look up they never see the sky like this
I'm on and this little light I got
Imma let it shine til the day I drop
Heart quit pumping only way I stop
Til then I'm a light post on your block
Treat every night like it's the last night
Like it's the last time you get no other chances
Get your torches high let's set ablaze the sky
Passion's a fire bright and we'll be burning forever
Set the world on fire let's set the world on fire
Set the world on fire let's set the world on fire
Set the world on fire let's set the world on fire
Set the world on fire let's set the world on fire
See I don't want no regrets no turning back Imma go and impress
Even if I lead the whole world impressed
That ain't going to put my soul to rest
Keep the name keep the fame world to cold so I keep the flame
Ever seen a child ain't eat for days
Promise you ain't ever go'n leave the same
Hands and feet cause these the meek
The world is a mess go'n sweep the streets
Cure for cancer cure for AIDs
Make a brother wanna stay on tour for days
When I get home and things are wrong
There's two shot dead right around my zone
Ya I pray but faith is dead if I don't get up and go work my legs
Torches high light the sky 116 no shame tonight

Ya they ain't ever seen a shine like this
Look up ain't ever see the sky like this
I'm on and this little light I got
Imma let it shine til the day I drop
Heart quit pumping only way I stop
Til then I'm a light post on your block
Treat every night like it's the last night
Like it's the last time you get no other chances
Get your torches high let's set ablaze the sky
Passion's a fire bright and we'll be burning forever
Set the world on fire let's set the world on fire
Set the world on fire let's set the world on fire
Set the world on fire let's set the world on fire
Set the world on fire let's set the world on fire
Set the world on fire let's set the world on fire
Set the world on fire let's set the world on fire
Set the world on fire let's set the world on fire
